(e) No, Sir.

Complaints of Anomalies in identification of drugs

1996. SHRI HARI SINGH: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to refer to answer to Unstarred Question 142 given in the Rajya Sabha on the 27th July, 1988 and state:

(a) whether it is a fact that Government have received representations from Consumer Associations, Medical Associations and Members of Parliament in respect to anomalies and discrepancies in identification of drugs needed for control of diseases under National Health Programme as well as non-inclusion of diseases and drugs required in the list recommended for price control under Category-I; and

(b) if so, what are the details thereof and what action has been taken by Government in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (KUMARI SAROJ KHAPARDE): (a) and (b) Representations have been received to include certain drugs and biologicals under Category-I of the new Drug Price Control Order such as Vitamin 'A', Sera/Vaccines, Oral Contraceptives, Iron and Calcium, re-categorisation of Rifampicin from Category I to Category II and de-categorisation of Tranquillizers such as Diazepam, etc; wrong categorisation of drugs like Paracetamol, Quinine, Hydrocortisone and Tetracycline and omission

of certain drugs under the Trachoma and Prevention of Blindness Programme such as Oxytetracycline, Chloramphenicol, Framycetin and certain corticosteroid drugs.

Ministry of Health & Family Welfare had considered the representations and have already recommended to the Department of Chemicals for exclusion of Paracetamol from Category-I, re-categorisation of Rifampicin and exclusion of Diazepam and other Tranquilizers from Category-II.

Sera/Vaccines required under E.P.I. Programme have already been recommended for inclusion under Category-I. The drugs required under Mother Child Health Programme such as Vitamin 'A', Iron, etc. are being evaluated for price control recommendations. Ministry of Health and Family Welfare, however, have preferred to include Tetracycline antibiotics over other antibiotics and hydrocortisone under the Trachoma and Prevention of Blindness Programme.
